

Puppy Prep,

Things you will need prior to adoption.

1. Puppy Food

.... has been eating ProPac Puppy. It is ok if you would like to switch to another brand of food. If you are unsure which brand to choose, Find out what brands are easily accessible in your area, then do some research on those brands. A good resource is www.dogfoodadvisor.com. I will be sending a small pack of ProPac food with you so you can mix it with your brand to make the transition easier. Bernese are a very fast growing breed and need all the nutrition they can get while they are growing. For this reason I do not ration their food, but rather keep them on ' Self-feed' until they are older and need rationing for weight control. In addition to proper feeding your puppy also needs;

2. Supplements

Nuvet has numerous different products but the ones that you need to get signed up for are the [NuVet Plus](#) and [NuJoint DS](#). Your **Order code is 76012**. (this is important because your 2 year health guarantee depends on you feeding these products).

3. Collar and Leash

4. Dog Toys

5. Puppy Shampoo

6. Food and Water bowls

This is not an all inclusive list, but i covers some of the basics. If you have questions, please ask!
